Homework Assignment

Chapter 1 Text Book Problems
3,41,53,63,77,85,93

Chapter 2 Text Book Problems
18,25,57,61

Chapter 2 Computer Lab Assignment
Problem 3, page 44

General Instructions for Computer Lab Problem:

- Enter the data from appendix A into EXCEL spread sheet
- The first column represents the x – data
- The second column represents the y - data
- Plot an x – y scatter type graph similar to the example handout
- Add a trend line curve fit by right clicking on plotted x – y data
- Right click on the trend line if it needs to be modified
- Don't forget to display the trend line equation
